Profile

Third-year Artificial Intelligence Engineering student seeking opportunities to apply and expand my AI knowledge, especially in Python, algorithms, and application development. Strong background in AI and programming, with hands-on experience in video game development and international collaboration.

International Mobility and Key Projects

Erasmus Home Human Out Migration in Europe | *Budapest, Hungary* **Sept. 2021**

- Collaborated with international partners on the Erasmus [HOME](#) initiative on human out-migration in Europe.

University Projects | *Alicante, Spain* **2023 – Present**

- Working on my Bachelor's thesis: a RAG system for a legal assistant chatbot that finds relationships between cases and supports client matters with relevant case law, using Airflow, Spark, MinIO, and Qdrant.
- Developed and documented a [ResNet-50 model](#) in MATLAB for skin cancer detection, reaching 80% accuracy for cancerous and 85% for non-cancerous cases.
- Built an [intelligent e-commerce web app](#) enabling product search by text or image through pre-trained AI models.
- Created a [fuzzy expert system](#) to estimate heart attack risk based on structured clinical questions.
- Designed a [Pacman agent](#) that combines a CNN with Alpha-Beta heuristics for strategic gameplay.
- Developed and evaluated a multi-class animal classifier, benchmarking Gaussian Bayes, Parzen windows, and k-NN variants on a [balanced Zoo dataset with 7 species](#).
- Implemented in AWS a [secure hybrid deployment](#) and a scalable container-based [canary rollout](#).
- For additional case studies, explore my [project portfolio](#).

Personal Projects

Spotify Wrapped Analytics | *Alicante, Spain* **Oct. 2024 – 2025**

- Developed a Jupyter notebook delivering in-depth analytics of [music listening habits](#) using Spotify data.

3D Video Game with Unreal Engine 4 | *Alicante, Spain* **2022**

- Assembled and programmed a [3D video game](#) leveraging Unreal Engine Blueprints and C++.

Professional Experience

Outlier | *Alicante, Spain* **2024 – Present**

- Working as an RLHF Researcher, contributing to multiple reinforcement learning projects driven by human feedback.

Education

University of Alicante **Sept. 2022 – Present**

B.Sc. in Artificial Intelligence Engineering (3rd year, all coursework passed)

Alicante, Spain

AWS Certifications | [Cloud Data Pipeline Builder](#), [Machine Learning Foundations](#) **2025**

Oxford Test of English **May 2024**

B2 Level, ref 263339

Alicante, Spain

Additional Skills

Tools: AWS, LaTeX, Git, Docker, Bash, Airflow, Spark, MinIO

Machine Learning Tools: PyTorch, Scikit-learn, Hugging Face, pandas, NumPy, Matplotlib, n8n, RAG, Qdrant

Programming: Python, C++, C, Swift, MATLAB, NoSQL, SQL, JavaScript

Languages: English (Fluent), Spanish (Native), Catalan (Native)
